

ISPO

International Standard for maritime Pilot Organizations

WELCOME TO MELBOURNE

ISPO

Incident / accident analysis

A robust system to investigate, analyze incidents so ALL PARTIES learn from the actual incident

ISPO chapter 11

Training Program

Documents initial and ongoing pilot training (IMO A960)

ISPO chapter 6

Bridge Resource Management for Pilots

“Vitality important should include Harbour masters, pilot managers, VTS and tug crews”

ISPO chapter 7

Fatigue Management

Every port has different required for the number of pilots on duty, rest is critical to safe operations.

The Master expects a well trained, well-rested and well-prepared pilot - every time!

ISPO chapter 7&8

Planning

Allocating time for the planning of each act of pilotage

ISPO chapter 8

Risk Assessment

Risk assessing all aspects of the pilot's role and any mitigations required.

ISPO chapter 11&12
